Operator

When they ask
“What is this in regards to?”

01

-Good morning, could you please transfer me to (KP NAME)?

02

-Good morning, could you please transfer me to the person in charge of the SALES of your used plastic injection molding machines and equipment.

03

This is _____ with JYC Machinery and I´m calling because we buy plastics machinery, such as injection molding machines, blow molding machines, extruders and auxilliary equipment. I wanted to check with (KP name) if you might have anything for sale right now or maybe coming up this year? Is he available?

04

This is _____ with JYC Machinery and I´m calling because we buy used plastics machinery, such as injection molding machines, blow molding machines, extruders and auxilliary equipment. I wanted to check if you might have anything for sale right now or maybe coming up this year? Do you know who would be the person I need to talk to?

IF you are talking to the KP

Tell them you´ll be brief

01.

Hi (KP Name). This is__ with JYC Machinery.
Did I catch you at a bad time?

02.

(KP name), I´m calling you because we are nationwide buyers of used plastics machinery, such as plastic injection molding machines, blow molding machines, extruders and auxilliary equipment.
. I wanted to check if you might have anything for sale right now or maybe coming up this year?

Not a good time, set up a Call Back

IF THEY DO HAVE EQUIPMENT AVAILABLE:

01. (KP name), I´m calling you because we are nationwide buyers of used plastics machinery, such as injection molding machines, blow molding machines, extruders, and auxiliary equipment. I wanted to check with you if you might have anything for sale right now or maybe coming up this year?

02. And what type of equipment is it. Is it a plastic injection molding machine? Blow molding machine? Extruder?

03. -What's the model?

IF THEY DO HAVE EQUIPMENT AVAILABLE:

04

What's the make?

Is it a Cincinnati Milacron?
Krauss Maffei
Engel?

05.

-What is the tonnage?

Is it a 500 ton machine? or 2000 ton?

06.

-Do you know what year it is?

Is it from late 90's? Early 2000's? Newer?

IF THEY DO HAVE EQUIPMENT AVAILABLE:

07

Is it running or does it need any major *repairs?*

Negociation stage

IF THEY SAY: GIVE ME A PRICE

01. - Do you have a price in mind for it?
-Could you please send me some pictures of it including the data plate and the hour meter?

02. Yes, we can make an offer, but we do need the pictures and details of the running conditions.
Do you have a price in mind for it?

I can definitely send someone over to take pictures and inspect the unit, no problem.
But before we do that, I don't want to waste your time...or ours if it's not something we would buy.
Could you tell me a bit more first? Like, what make, model, and year is it? Is it running, or does it need any repairs?

Negociation stage

If they ask how the process is:

Well, please keep us in mind because we also sell good pre owned equipment. We have 2 different markets, one is our overseas market, where we sent the older units that we usually buy...Those that might need repairs, high hours.
And the other is our domestic market, where we have our inventory of equipment that is in great running condition, and later models with a few hours ready for immediate delivery.
We give a 30-day Start-up warranty on major components, and all our prices are delivered to your facility.

Is there anything you might be looking to add to your fleet?

IF THEY AUCTION

01.

If they do have equipment to auction: Ask them if they have already signed the contract?

02.

- Do you have a price in mind for it? We are not an auction house or brokers; we buy equipment for stock, so we don't charge any commissions. If we agree on a price, we can pay within 24 hours, and we will take care of all the freight costs. We also have an overseas market for older equipment that might need repairs. We buy running or not as long as it's complete.

01.

Please keep us in mind next time you have something for sale, because we can pay more than other companies since we export the units we buy. We can pay you within 24 hours, and we take care of all the rigging and freight costs. We also have an overseas market for older equipment that might need repairs. We buy running or not as long as it´s complete.

IF you can´t reach out the KP

Usually the Operations Manager or a Plant Manager would know.

“No. He is not available at this time. May I take a message?”

Not a good time, set up a call back

01

Sure, please tell him I called. This is ____ with JYC Machinery. My phone number is _______. We buy used plastics machinery such as injection molding machines, blow molding machines, extruders and auxilliary equipment. Does he have an email address where I could try to reach him at?

02

Thank you.
What is his position in the company?
When would be a good time to reach him at?
Does he have a cellphone number where I could reach him?

IF THEY DO NOT HAVE EQUIPMENT AVAILABLE:

01. I understand. How does the process look like when you do have a surplus equipment for sale?

02. Do you buy used equipment as well? or do you only go for brand new units?

03. Are you involved on both the sales and purchases of the equipment?

IF THEY DO NOT HAVE EQUIPMENT AVAILABLE:

04. Are you planning to buy any used machines anytime soon?

05. Do you take care of the equipment sales at several locations or branches, or only your plant? (If the company has several plants)

06. When would be a good time to check back with you?

3 Months? 6 months? a year?
