Negotiation stage

IF THEY SAY: GIVE ME A PRICE

01.

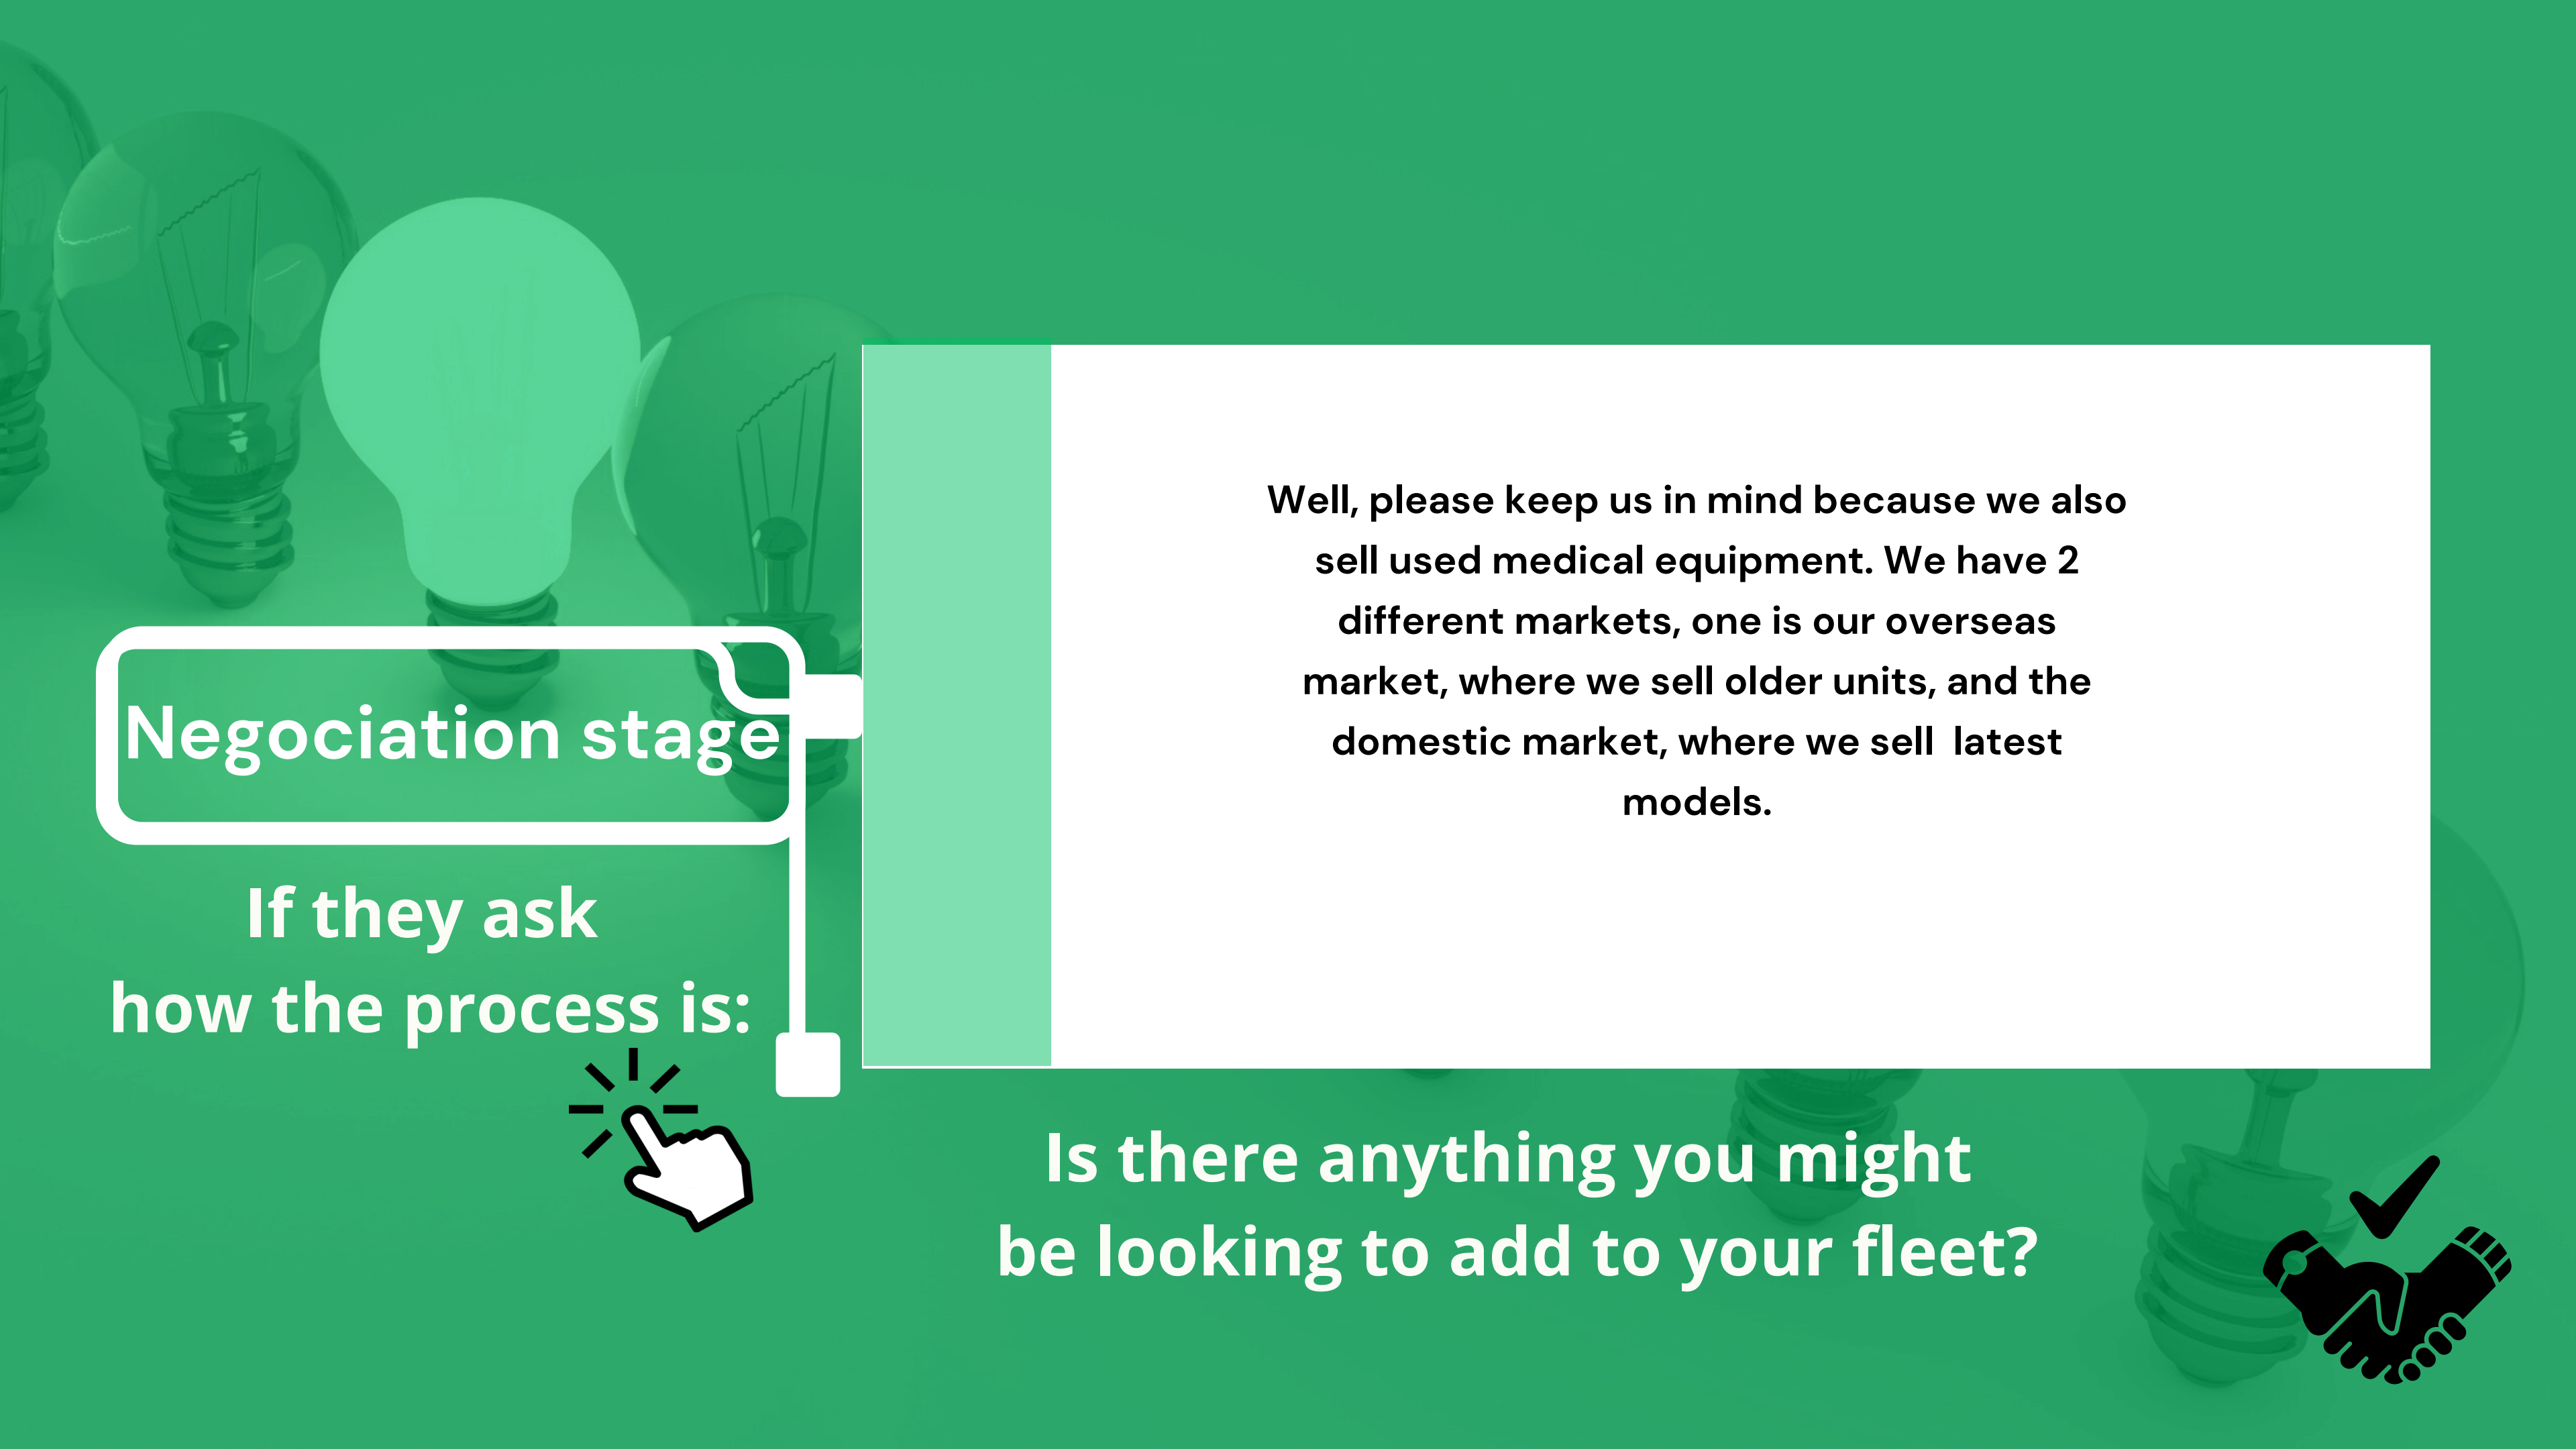

Do you have a price in mind for it?
Could you please send me specs, pictures of it, including the year and model?

02.

Yes, we can make an offer, but we do need specs, pictures, and details of the running conditions.
Do you have a price in mind for it?

I can definitely send someone over to take pictures and inspect the unit, no problem.
But before we do that, I don't want to waste your time...or ours if it's not something we would buy.
Could you tell me a bit more first? Like, what make, model, and year is it? Is it running, or does it need any repairs?

If they ask
how the process is:

Well, please keep us in mind because we also
sell used medical equipment. We have 2
different markets, one is our overseas
market, where we sell older units, and the
domestic market, where we sell latest
models.

Is there anything you might
be looking to add to your fleet?

IF THEY TRADE IN

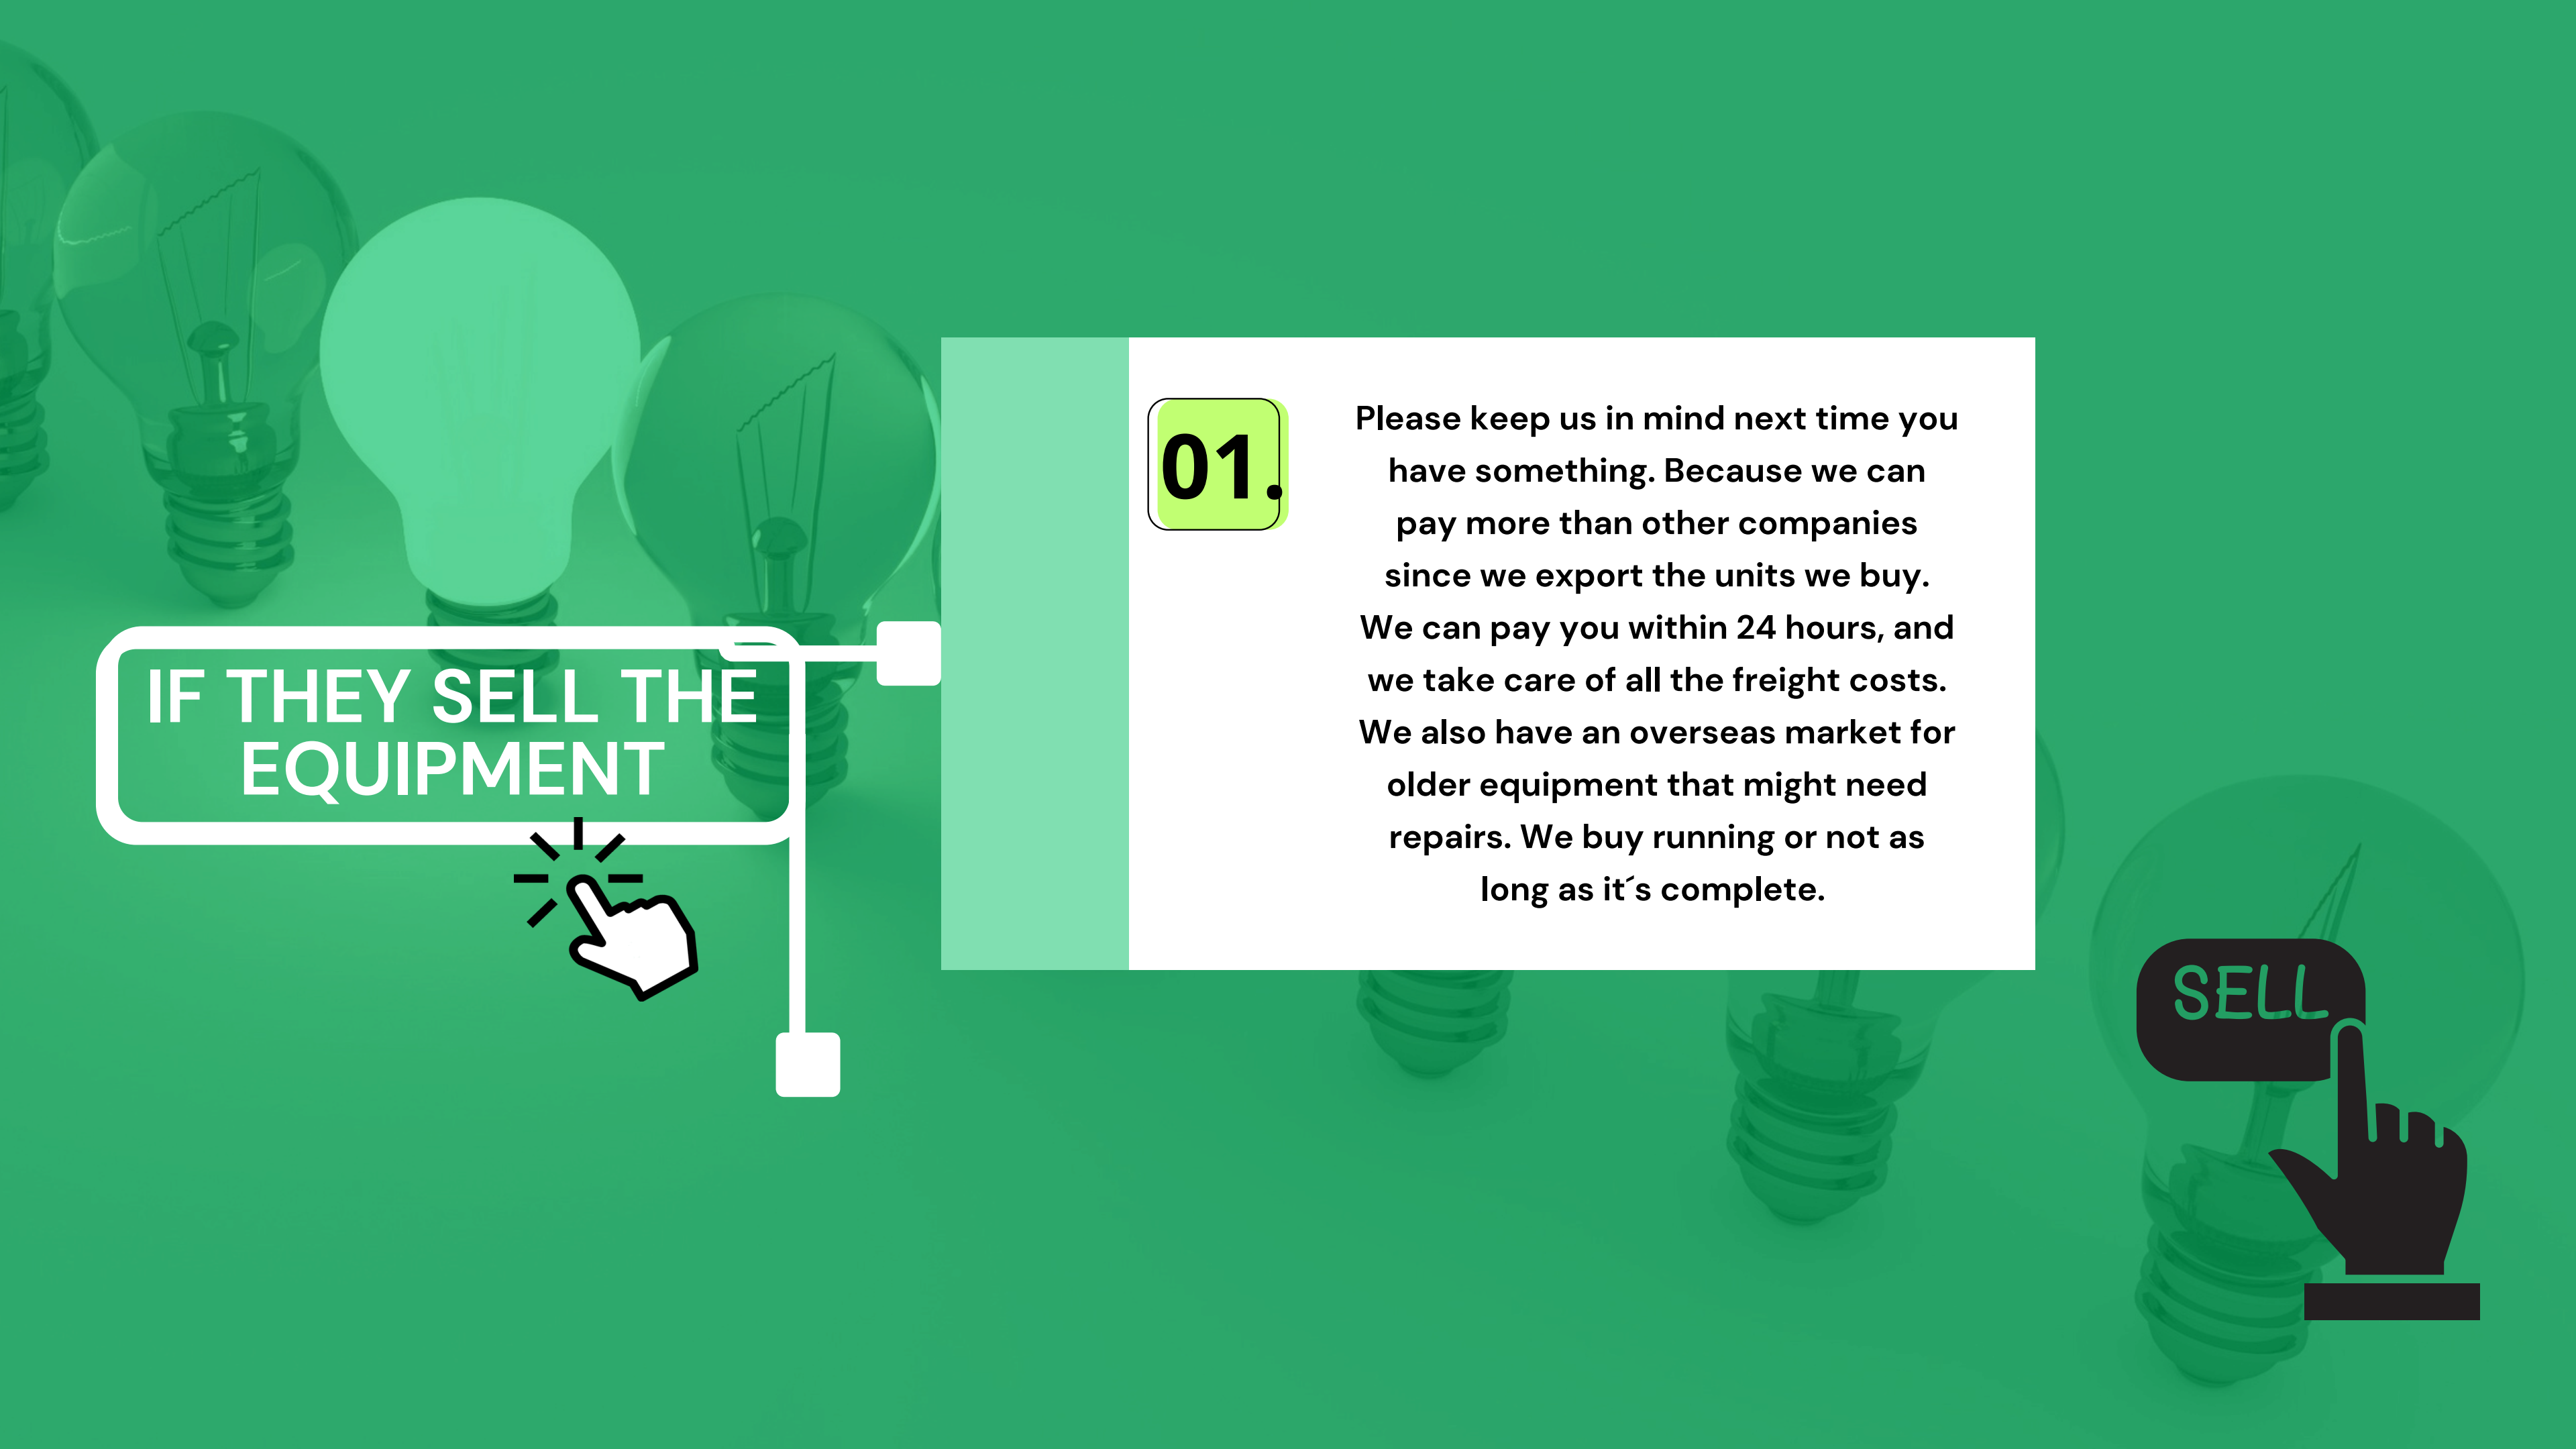

01.

Please keep us in mind next time you have something.

We don't sell brand-new equipment, but we pay more than the trade-in value because we export the units we buy.

We also buy running equipment or not if it's complete, and take care of freight. Do you have anything that you are considering trading in?

IF THEY SELL THE EQUIPMENT

01.

Please keep us in mind next time you have something. Because we can pay more than other companies since we export the units we buy. We can pay you within 24 hours, and we take care of all the freight costs. We also have an overseas market for older equipment that might need repairs. We buy running or not as long as it's complete.

SELL
